BioThane BETA®

BioThane 'BETA' ® 19 mm

Il BioThane® "BETA" da 19 mm è un materiale di altissima qualità, costituito da una base in nylon ad alta resistenza rivestita da poliuretano (TPU). È impermeabile, antibatterico, resistente agli strappi e mantiene la sua flessibilità anche a basse temperature. Al tatto imita la pelle, offrendo una sensazione morbida e premium, ma senza necessità di manutenzione.

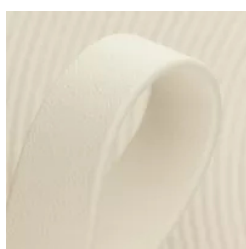

(Nota: il BioThane® è sensibilmente più costoso rispetto ad altri materiali sintetici come PVC o webbing standard, poiché è brevettato, più durevole e prodotto con standard qualitativi elevati.)

Dog Leash Rope – Ø10 mm PPM

La corda PPM (Polypropylene Multifilament) da Ø10 mm è un materiale leggero, resistente e galleggiante, ideale per la realizzazione di guinzagli e collari.

È composta da fibre sintetiche intrecciate che garantiscono elevata resistenza alla trazione, impermeabilità e rapidità di asciugatura.

Il PPM non assorbe acqua né sporco, è facile da pulire, non sviluppa odori e mantiene nel tempo i colori brillanti.

Grazie alla sua struttura morbida e flessibile, offre un'ottima presa e comfort durante l'uso, pur rimanendo robusta e durevole anche con cani di taglia media e grande.

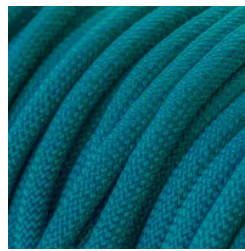

Disponibile in diversi colori e finiture, è la scelta perfetta per chi cerca un guinzaglio dallo stile sportivo, leggero e funzionale.

Paracord 550 Type III (Tex.PES) – 3.8 mm

Il Paracord 550 Type III (Tex.PES) da 3,8 mm è una corda in poliestere intrecciato ad alta resistenza, utilizzata per realizzare legature, finiture e rinforzi su guinzagli e collari.

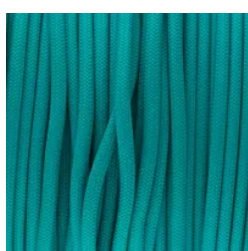

Originariamente sviluppato per impieghi militari, questo tipo di paracord è leggero ma estremamente robusto, con una resistenza alla trazione fino a 250 kg (550 lbs).

Il rivestimento in poliestere (PES) garantisce ottima resistenza all'abrasione, ai raggi UV e all'umidità, mantenendo colori vivaci e una tenuta costante nel tempo.

Grazie alla sua flessibilità e maneggevolezza, è ideale per chiudere asole, creare nodi decorativi o rinforzare punti critici senza appesantire il prodotto.
